Colombia: A Country with Two Oceans!

There are five oceans on Earth: the Atlantic, the Pacific, the Indian, the Arctic and the Southern (or the Antarctic). Colombia is privileged in terms of oceans due to its location, which means it has access to two oceans: the Pacific and the Atlantic.

Unfortunately, many ocean species are in danger of extinction, mainly due to pollution and overfishing. Some endangered species in the Pacific are sea otters, seals, and turtles. In the Atlantic, some endangered species are sea lions, dolphins and whales.

Which Ocean has two names?

How many ocean coastlines does Colombia have?

What are the main reasons some ocean life is in danger of extinction?

Hi! I'm Andy. I'm ten years old. I like sport but I love eating, too. After school I often go to the fast food bar and buy a hot dog. I'm not good at swimming but I'm a good handball player. Patrick is my friend. He is nine years old. He loves football and he is a great swimmer. Josh is eleven years old and he is a basketball player in our school team. He's the captain. He can't swim. Susie is my friend, too. She is eleven years old and she plays basketball very well. She is the captain in the girls' team. She loves swimming and she never eats fast food. Angelica is eight years old. She swims and runs a lot. She doesn't care about her diet and she eats a lot of junk food. She loves doughnuts.
